5 workers die while cleaning septic tank, another critical

EXPRESS NEWS SERVICE
MUMBAI, MAY 12

FIVE WORKERS died Thursday while allegedly cleaning a septic tank at Sonpeth taluka in Parbhani district, police said adding that the condition of another worker is said to be critical.

The five workers, identified as Sadiq Sheikh, 55, Junaid Sheikh, 32, Naveed Sheikh, 28, Shahrulkh Sheikh, 28, and Firoz Sheikh, 27, were declared dead during treatment, the police said. The police, who have registered a case of accidental death report, said they are trying to ascertain whether the five people died of drowning, suffocation or due to electric shock from a machine they were using to clean the tank.

Police Inspector Sunil Rejitwad of Sonpeth police station said, "A person named Sultan had received a contract of cleaning septic tanks around the area. So, he, along with six others, had started cleaning a septic tank in Bhaucha Tanda Shivara of Sonpeth taluka at about 3.30pm Thursday."

The incident took place around 9 pm as the men resumed the cleaning of the tank after a tea break at 8.30 pm, said inspector Rejitwad.

"At that time a worker named Sabir Sheikh fell inside the tank. But his co-worker went inside and rescued him. However, sometime later the second worker, who rescued Sabir, also collapsed. Later, when four others went inside (one after the other) to rescue their colleagues, all of them collapsed inside the tank," said Rejitwad, while adding that Sabir who is admitted to a hospital in Parli is in critical condition.

The police, who have registered a case of accidental death report, said they are trying to ascertain whether the five people died of drowning, suffocation or due to electric shock from a machine they were using to clean the tank

Accordingly, the local police were informed about the incident after which a team rushed to the spot and took the ailing persons to the hospital, where the five were declared dead during treatment.

Police said that all the workers were later taken to a government hospital and their post-mortem was conducted," said Rejitwad adding, "The preliminary report suggests that they died due to drowning. We suspect that they must have fallen short on oxygen supply as one requires an oxygen support to go inside a septic tank due to which the workers lost consciousness and fell in the water one after the other and died due to drowning."

The investigators, however, said that their final post-mortem report is awaited which will help them ascertain the main cause of their death and that shall help us in identifying the cause of the incident.

The police said that apparently, the workers had also taken a machine to the spot with the help of which they were cleaning the tank.

Mumbai reels under heat for second day in a row

People flock to Bandra seaface to enjoy the refreshing breeze as a heatwave warning was issued by IMD. Amit Chakravarty

PRATIPACHARYA
MUMBAI, MAY 12

MUMBAI CONTINUED to reel under heatwave-like conditions as the India Meteorological Department (IMD) issued a heatwave forecast for the second consecutive day on Friday. Apart from Mumbai, the IMD has issued heatwave warning for neighbouring districts of Palghar, Raigad and Thane along with Dhule, Nandurbar, Jalgaon and Nasik.

IMD's Santacruz observatory recorded 35.2 degrees Celsius on Friday, which was two degrees above normal, while the coastal observatory at Colaba recorded 34.4 degrees, a degree above normal. Mumbai's daily temperature,

however, saw a dip by two degrees in last 24 hours.

"Temperatures are rising due to variable wind patterns. Currently, there has been an anticyclone that has developed over the state and will gradually move northward. So we can expect temperatures to decline by a couple of degrees in the next 2-3 days," said Sunil Kamble, director of IMD, Mumbai. For Saturday and Sunday (May 14) the IMD has issued heatwave warning for Wardha, Akola and Chandrapur.

On Friday, 12 districts in the state recorded temperature above 40 degrees. The IMD issues heatwave warning in any coastal city, when the maximum temperature crosses more than 37 degrees Celsius in two stations. However,

in this case Kamble said the warning was issued since the real feel of the temperature was much higher.

Mumbai's minimum temperatures recorded at Santacruz and Colaba observatories on Friday was 27 and 27.5 degrees, one degree above normal. The city's relative humidity showed 71%.

Apart from Mumbai, on Friday, Jalgaon recorded 44.9 degrees, followed by 39 degrees in Nasik and 36.7 degrees in Dahanu. Alibag in Raigad recorded 41.4 degrees Celsius.

IIT Bombay removes branch change option to reduce stress on students

PALLAVISMART
MUMBAI, MAY 12

THE INDIAN Institute of Technology (IIT) Bombay has decided to remove the option of branch change at the end of the first year to reduce stress on first-year students. According to the institute, the pressure to get higher grades to earn a branch change was causing stress on many students. Additionally, the institute has also decided to reduce one course per semester in the first year to further reduce the academic load.

The decision was taken at the Senate's 256th meeting held on Friday that discussed several proposals to reduce academic stress on the first-year students. IIT Bombay will be the first from the group of first-generation IITs to take such a decision that comes at the backdrop of first-year student Darshan Solanki's death by suicide.

After an interim report submitted by a panel, which was probing the suicide of Solanki, cited that his 'deteriorating academic performance' could be a possible cause; the institute had formed a separate committee in March to examine how to reduce

academic stress on students, especially those in the first year.

"This decision was made based on the observation that the pressure to get higher grades to earn a branch change was causing stress on many students, while only a few benefit from the change of branch. The number of seats at the time of admission may be correspondingly increased by a small number in some of the popular branches. Another key decision made by the Senate was to reduce the academic load on students by reducing one course per semester in the first year. Thus those students who find it difficult to cope with the academic load, will have more time to work towards their courses," read the statement by the institute.

The changes will be applicable from the 2023 batch. "Students will now have to select carefully the branch that they want to join. This decision means, once a student takes admission to IIT Bombay in Mechanical engineering; he will be graduated in the same branch, unlike earlier practice where he/she could apply for changing to a branch of choice, based on high scores," shared a professor from IIT Bombay.

The Committee formed by the

institute to examine how to reduce academic pressure on first-year students held a survey with existing students. Based on that report, the observations were submitted to the Senate where it was finalised. With the decision to reduce one course per semester in the first year; students will now have to complete four, instead of five courses, along with lab-work.

A senior official at the IIT Bombay, said, "Many students join whichever branch they get a seat in at the time of admission. This is with hopes to be able to use the branch-change option at the end of first year and study the branch of their choice. This is causing pressure on students as to avail the branch-change facility, one needs to have a high score."

Director of IIT Bombay, Prof Subhasis Chaudhury, said: "IIT Bombay wants all its students, irrespective of their CPI, to enjoy their sojourn through the learning ecosystem on our campus. The initial onboarding process for students is being made to suit their diverse backgrounds and to give them ample time to adjust to the academic demands."

Before IIT Bombay, IIT Jammu and IIT Hyderabad had stopped the practice of branch change.
